

2009 MEDIA KIT

EMPLOYING THE AEROSPACE, DEFENSE, AVIATION & COMPOSITES INDUSTRIES

AEROSPACE • DEFENSE • AVIATION • ADVANCED MATERIALS

Aeroindustryjobs is the leading network for careers in the Aerospace, Defense, Aviation and Composites industries, connecting the most progressive companies with the most qualified, career-focused individuals. Our internet recruitment services provide our clients a fast, low cost method for recruiting industry professionals.

With over 75,000 active industry job seekers within the *Aeroindustryjobs Newsletter* network, your recruitment needs are promoted to the right audience.

Our fully automated and easy-to-use online service allows our Employers to register and build their account online, post and manage job posting, track applicants and application statistics 24/7 from any internet connection.

Resumes and Job Seeker Profiles are in a consistent format. Employers can choose to receive resumes emailed as Word® attachments, or redirect applicants to apply directly through the employer's website. Through your online account, you can obtain applicant Citizenship and Security Clearance information, relocation preferences and salary requirements, and contact applicants via email with the click of a button.

True Applicant Tracking allows Employers to track job applicants through their online account for a full 2 years from the application date. This means that you have real time access to the most recent version of applicant resumes, profiles and contact information long after your job posting has been closed.

Multiple Account users. Your account will support multiple users, who can manage their own jobs independently, and receive applications in their preferred format. The Account Administrator (at your company) can easily add or remove additional users from the account.

Job Import Service automatically imports jobs from your internal system to your Aeroindustryjobs account on a daily basis, ensuring fresh job content and reducing labor costs. Full details at <http://import.aeroindustryjobs.com>.

All Job Postings Include:

- Employer Profile, including a description of your company, your company logo and link to your website.
- Full page job description including a full array of editing tools.
- Promotion in each issue of the *Aeroindustryjobs Newsletter*, our weekly email publication promoting all open jobs to an active readership of over 75,000.

Single Job Posting Rates:

- **Client Managed Postings** (standard on all new accounts): \$225 covers your job for the first 30 days. Additional days are optional, and cost \$7.50 per day. Client chooses when to close their jobs.
- **30 Day Job Postings** (setup required): All jobs posted to the account will automatically close after 30 days at rate of \$225 per job.
- **60 Day Job Postings** (setup required): All jobs posted to the account will automatically close after 60 days at rate of \$285 per job.
- **Invoices** are emailed to the employer on the 1st of each month, and we offer online payment via AMEX, VISA MC, or by check.

Job Bundles and Contract Discounts:

Employers can save money by purchasing a bundle of 30 or 60 day job postings, or an Unlimited Posting Package. Standard options are listed below, and customized packages are available:

30 and 60 Day Packages

Packages	30 Day Postings	60 Day Postings
10 Pack (20% discount per job)*	\$1800	\$2280
20 Pack (30% discount per job)*	\$3150	\$3990

Unlimited Packages**

	6 Month Package	12 Month Package
Unlimited Job Postings	\$7,500	\$12,000

* Discounts based on single job posting rates
 ** Unlimited packages apply to single company division. Additional divisions may be added to 6 month package for \$1,500 and to 12 month package for \$2,500.
